

Fédération des géomètres francophones

1. Constitution of the collective "Femmes géomètres francophones" and creation of the "Réseau des Jeunes géomètres francophones", Thursday 29 November 2018, Skhirat Congress Centre, Rabat, Morocco

The FGF held its 7th French-speaking Universities of Surveyor's Improvement at the Skhirat Convention Centre in Rabat.

These universities saw the constitution of **the Collective "French-speaking women surveyors"** as well as the creation of the **"Network of young French-speaking surveyors"**. These two FGF initiatives aimed to relay to French-speaking professionals the work

carried out at the global level by the International Federation of Surveyors (FIG) to promote the place and role of women and young people within the profession, both in terms of access and practice, as well as in the response to the challenges of land tenure security and sustainable social and economic development, particularly in the countries of the South.

COLLECTIF DES FEMMES GÉOMÈTRES FRANCOPHONES RÉUNI À D

The effects of COVID 19
